HELMET FITTING GUIDE

A helmet must fit correctly to protect its user. To determine the correct size for you, measure the circumference of the widest part of your head using a flexible tape measure. Generally, the widest point exists 2.5 cm above (1") an individual's eyes and ears, however you should test a few spots to be certain. We also suggest testing the fit of a helmet one size smaller and one size larger than what the chart recommends. No helmet can protect the rider if it's too uncomfortable to wear!

54-55 cm	56-57 cm	58-59 cm	60-61 cm	62-63 cm	64-65 cm
21 1/4" - 21 5/8"	22" - 22 7/16"	22 13/16" - 23 1/4"	23 5/8" - 24"	24 3/8" - 24 13/16"	25 3/16" - 25 5/8"
XS	S	M	L	XL	XXL
ADULT
