2018 CATALOG

ADULT FULL-FACE

FX-90

HELMET TECHNOLOGY

SHELL DESIGN

An aerodynamic shell design constructed using an advanced lightweight composite poly-alloy

FACE SHIELD

A flush-fit, side-coverless face shield that is optically correct, compound-curved, scratch-resistant and protects against UV-rays

QUICK RELEASE RATCHET

Quick release shield ratchet system

VENTILATION

7 points of ventilation with chin, side, forehead, top and rear vent. 5 intake vents and 2 exhaust vents

MAIN SPECIFICATIONS

•This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards

- Retention system is a race approved Double D-RING
- ·Provides ample ear cavity space for most speaker systems
- There are 2 tinted shields available for this model
- •A clear coat finish to protect paint & graphics
- •A large-size FX-90 weighs 1.36 kg or 3.00 lbs.
- Available size: XS-XXL

NOTE: SEE PAGE 158-159 FOR THE COLD WEATHER SHIELDS, BREATH GUARDS AND CHIN CURTAINS

REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

ADULT CROSSOVER / CONVERTIBLE

HELMET TECHNOLOGY

- 1		
	1	1

SHELL DESIGN

A sleek European influenced shell design constructed using an advanced lightweight composite poly-alloy

FACE SHIELD

A flush-fit, quick release screw on face shield that is optically correct, compound-curved, scratch-resistant and protects against UV-rays

3 VENTILATION

10 points of aerodynamically designed flush fit ventilation with chin, top, rear, and unique side extraction vents. 5 intake vents and 5 exhaust vents

4 INNER SUN SHIELD

7 IN 1 A

DOT FMVSS No.218

Smoke tinted inner flip down sun shield system with left side slide lever

5 VISOR

A removable and adjustable (40mm) screw-on visor

Helmet can be configured one of seven different

ECE 22.05

ways. Ships with all parts included

6

1. Helmet with standard visor, shield, and chin bar (standard configuration)

4. Helmet with shield

5. Helmet with standard visor

2. Helmet with standard visor and shield

6. Helmet with short visor

3. Helmet with shield and chin bar

7. Helmet with mx vent chin bar and standard visor

MAIN SPECIFICATIONS

•This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards

- •Retention system is Microlock (quick release)
- •A clear coat finish to protect paint & graphics
- •A large-size FX-55 weighs 1.68 kg or 3.69 lbs.
- •Available size: XS-XXL

REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

HELMET SHELL & EPS SIZE	XS	S	М	L	XL	XXL

YOUTH SCOOTER

HELMET TECHNOLOGY

SHELL DESIGN

A sleek European influenced shell design constructed using an advanced lightweight composite poly-alloy. This helmet is specifically designed to fit youth and small adults A

FACE SHIELD

A flip-up, flush fit, quick release, single turn screw face shield. The shield itself is optically correct compound curved, scratch-resistant and protects against UV-rays

MAIN SPECIFICATIONS

•This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards

•A helmet liner made with a hypo-allergenic and anti-microbial moisture wicking nylon, all of which are washable

Retention system is Microlock (quick release)

- •Features a metal ring for secure lock ability B
- A clear coat finish to protect paint & graphics
- •A youth large-size FX-33Y weighs 0.85 kg or 1.80 lbs.

•Available size: YS, YM AND YL

DOT FMVSS No.218

ROCKET

ADULT HALF HELMET WITH FACE SHIELD

HELMET TECHNOLOGY

SHELL DESIGN

FX-72

An advanced aerodynamic shell design constructed using thermoplastic poly-alloy

INNER SUN SHIELD 2

Helmet comes with clear shield installed and extra smoke shield in the box.

MAIN SPECIFICATIONS

•This helmet model meets or exceeds DOT FMVSS-218 motorcycle helmet safety standards

- Retention system is Double D-RING
- •A helmet liner made with a hypo-allergenic and anti-microbial nylon
- •Removable ear covers. Ear cover kit included
- •A clear coat finish to protect paint & graphics
- •A large-size FX-72 weighs 1.00 kg or 2.20 lbs.
- Available size: XS-XXL

INCLUDES EAR COVER KIT

•Available size: XS-XXL

INCLUDES DOUBLE LENS SHIELD A OR DOUBLE LENS ELECTRIC SHIELD, B BREATH GUARD C AND CHIN CURTAIN D

REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

AFX HELMET FEATURE ICONS

MICROLOCK

QUICK RELEASE Release

Helmet Retention System Is Race Approved Double D- Ring

Helmet Retention System Is Microlock Quick

This Youth Off-Road / ATV Helmet Features A Smaller Size Outer Shell Designed For Superior Fit And Comfort For Smaller Head Sizes

This Open Face / JET Helmet Features Three Outer Shell Sizes For Superior Fit And Comfort

Helmet Shell Is Made From Advanced Lightweight Composite Poly Alloy

Helmet Shell Is Made From Lightweight Fiberglass Reinforced Polymer

This Full Face Street Helmet Features An Oversized Outer Shell Sizes For Superior Fit And Comfort For XXXL & XXXXL Sizes

This Full Face Street Helmet Features Two Outer Shell Sizes For Superior Fit And Comfort

This Dual Sport / Adventure Helmet Features Two Outer Shell Sizes For Superior Fit And Comfort

This Off-Road / ATV Helmet Features Two Outer Shell Sizes For Superior Fit And Comfort

This Open Face / JET Helmet Features Two Outer Shell Sizes For Superior Fit And Comfort

This Youth Helmet Features A Smaller Size Outer Shell Designed For Superior Fit And Comfort For Smaller Head Sizes

This Half Helmet Features Two Outer Shell Sizes For Superior Fit And Comfort

Helmet Features Patented Advanced In-Molded & Cone-Head Ultra Lightweight Shell & EPS Exoskeleton Protection System

Helmet Features Patented Advanced Ultra Lightweight Cone-Head EPS Protection System

This Half Helmet Features Patented Advanced Ultra Lightweight Cone-Head EPS Protection System

AFX HELMET FEATURE ICONS

This Helmet Features An Oversized EPS Sizes For Superior Fit And Comfort For XXXL & XXXXL Sizes

This Helmet Features Four Inner EPS Sizes For Superior Fit And Comfort

This Helmet Features Three Inner EPS Sizes For Superior Fit And Comfort

This Open Face / JET Helmet Features A **Drop Down Inner Sun Shield**

This Half Helmet Features Our Patented Dual Inner Lens System With A Drop Down **Inner Sun Shield And A Drop Down Inner Clear Shield**

This Half Helmet Features A Drop Down Inner Sun Shield, Note Clear Shield Is **Installed On The Helmet And The Replaceable Tint Shield Is Supplied Extra In** The Box

This Helmet Features Two Inner EPS Sizes For Superior Fit And Comfort

This Youth Helmet Features A Smaller Size EPS Designed For Superior Fit And Comfort For Smaller Head Sizes

This Half Helmet Features Two Inner EPS **Sizes For Superior Fit And** Comfort

This Dual / Adventure Helmet Features A **Drop Down Inner Sun Shield**

This Helmet Features The Abilty To Custom Size The Final Fit With Removable **Interchangeable Cheek Pads And Comfort** Liners

This Helmet Features A Hand Washable **Cheek Pad And Comfort Liner**

There Are Replaceable And Optional Parts Available For This Helmet

Face Shield Is A Dual Lens Thermal Pane **Design, For Use In Cold Weather Conditions**

This Full Face Helmet Features A Drop Down **Inner Sun Shield**

Face Shield Is A Electrically Heated Dual Lens Thermal Pane Design, For Use In **Extreeme Cold And Freezing Weather** Conditions

AFX HELMET FIT AND SIZE GUIDE HOW TO FIND THE RIGHT FITTING HELMET FOR YOUR HEAD SHAPE

To properly choose a helmet fit, there are three important points of criteria that need to be examined in order for you to choose the helmet that fits you best.

1. Head Shape

The shape of the riders head is more important then the measured size of the riders head. Head shape can be determined by many factors including genetics and ethnic origin. However its important to note that there is no universal perfect head shape that is used for all models of helmets. Some helmets are designed for a functionality that dictates the final shape and fit of the helmet in question.

AFX helmets can be grouped into these three main fit categories: slightly narrow fit, neutral fit, and slightly round fit.

- Slightly Narrow Fit, helmets in this head shape may feel a little tighter on the left and right sides of the riders head.
- Neutral Fit, helmets in this head shape tend to fit a majority of riders.
- Slightly Round Fit, helmets in this head shape may feel a little tighter on the front and back sides of the head for some riders.

Please refer to the AFX helmet fit shape explanation

2. Size Measurement

Determine the circumference of the widest part of your head by using a flexible tape measure. Generally, the widest part of a person's head is the area 2.5 cm (1") above the eyes and ears. However, we suggest measuring at a few points both above and below that line to determine the greatest measurement before referring to our size table. We also suggest testing the fit of a helmet one size smaller and one size larger then what the chart recommends. No helmet can provide protection if it's too uncomfortable to wear.

Please refer to the AFX helmet sizing chart

3. Comfort and Fit

Helmets must fit snugly, but not painfully tight. While holding the chinstraps outside of the helmet, pull it down over your head, taking care that the chinstraps do not go up inside the helmet. A proper-fitting helmet will feel snug with fairly even pressure around the sides and top of your head. On most modern helmets the liner and cheek pads are designed to be a little extra snug at first, but will break-in after several hours of riding to match the particular shape of your head. If you are not familiar with how a helmet should fit and feel, be sure to ask for assistance from a more experienced rider. As a rule, the helmet should not be able to move around on your head without pulling on your skin. A loose fitting helmet is not only dangerous, but may also be noisy and tiring to wear. Most people make the mistake of buying a helmet that's too large. IMPORTANT: Make sure that you fasten the chinstrap securely beneath your chin when trying-on a helmet and then test to see that the helmet cannot be removed from your head when fastened in that manner.

Note: Most AFX helmets offer some degree of comfort and fit customization by being able to interchange combinations of comfort liners and cheek pads within the helmet shell size range. For a more detailed explanation of this feature please refer to the owners manual included with your helmet or visit afxhelmets.com.

67	26 3/8	8 5/8	Adult XXXX-Large	XXXXL
68	26 3/4	8 3/4	Adult XXXX-Large	XXXXL

Note: * Due to size fit similarities between Youth large and Adult X-Small Helmets in the sizes noted above, It is the Parents /Guardians responsibility to determine if a Youth Rider may safely and comfortably wear an Adult sized helmet.

SAFETY

WHEN TO REPLACE A HELMET

The expected lifespan of any helmet is 4-5 years of seasonal use, and decreases accordingly as the frequency of use increases. As you would expect, helmets used for competition such as road racing and motocross tend to have a much shorter life span. The more exposure a helmet endures to the elements, body oils, and perspiration, the faster it will wear out. In most cases the helmet liner will be the first component to wear out and, as such, functions as a good indicator that a helmet should be replaced.

We at AFX recommend that any helmet suffering a significant impact to the shell be removed from use immediately, whether there is visible physical damage or not. A helmet is designed to deform in an accident in order to absorb the energy of the impact, and should never be reused afterwards for its ability to protect the rider further could be compromised.

SAFETY REMINDER

No helmet can protect the wearer against all possible or foreseeable impacts. A helmet can only protect the portion of the head that is covered by the helmet. For maximum protection, the helmet must be well fitted with the chinstrap securely fastened. Failure to follow these instructions, the instructions printed on the helmet, and those contained in the owner's manual may result in the possibility of the helmet coming off during an accident - possibly resulting in a severe head injury or even death. While riding motorcycles, scooters, ATVs and snowmobiles is fun, it can also be a dangerous pastime. At AFX, we encourage you to enjoy riding responsibly, and to always ride within the limits of your abilities.
