## HELMET TECHNOLOGY

- 1 SHELL DESIGN**  
An aerodynamic shell design constructed using an advanced lightweight composite poly-alloy
- 2 FACE SHIELD**  
A flush-fit, lock down, side-coverless face shield that is optically correct, compound-curved, scratch-resistant and protects against UV-rays
- 3 QUICK RELEASE RATCHET**  
Quick release shield ratchet system with shield lock
- 4 VENTILATION**  
8 points of ventilation with chin, side, forehead, top and rear vent. 2 intake vents and 6 exhaust vents

## MAIN SPECIFICATIONS

- This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards
- Retention system is a race approved Double D-RING
- Provides ample ear cavity space for most speaker systems
- There are 5 tinted shields available for this model
- A clear coat finish to protect paint & graphics
- A large-size FX-95 weighs 1.59 kg or 3.5 lbs.
- Available size: XS-XXL

## REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

## HELMET TECHNOLOGY

### 1 SHELL DESIGN

An aerodynamic shell design constructed using an advanced lightweight composite poly-alloy

### 2 FACE SHIELD

A flush-fit, built in side-cover style face shield that is optically correct, compound-curved, scratch-resistant and protects against UV-rays. Shield can be removed to allow open face riding or for use with most goggles. Optional outer shield, **A** 3 position 9cm (3.5") long shield mounted on outside of the clear shield and moving independently from the clear shield. Will also work with the visor removed and the street side covers installed

### 3 VENTILATION

9 points of ventilation with chin, side, forehead, top and rear vent. 3 intake vents and 6 exhaust vents

### 4 VISOR

A removable and adjustable (30mm) screw-on visor. Shield can also be used without the visor. Side cover kit included **B**

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

## HELMET TECHNOLOGY

- 1 SHELL DESIGN**  
An aerodynamic shell design constructed using an advanced lightweight composite poly-alloy. This helmet is specifically designed to fit adolescents and small adults
- 2 VENTILATION**  
11 points of ventilation with chin, side, forehead, top and rear vent. 3 intake vents and 8 exhaust vents
- 3 GOGGLE GUIDE ON EYEPORTRIM**  
Goggle strap grabbers
- 4 VISOR**  
A removable and adjustable (50mm) screw-on visor

## MAIN SPECIFICATIONS

- This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards
- Retention system is a race approved Double D-RING
- A clear coat finish to protect paint & graphics
- A large-size FX-17 weighs 1.55 kg or 3.42 lbs.
- Available size: XS-XXL

**NOTE: SEE PAGE 113 FOR THE COLD WEATHER SNOW BREATH GUARD & CHIN CURTAIN**

## REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

## HELMET TECHNOLOGY

### 1 SHELL DESIGN

An aerodynamic shell design constructed using an advanced lightweight composite poly-alloy

### 2 VENTILATION

11 points of ventilation with chin, side, forehead, top and rear vent. 3 intake vents and 8 exhaust vents

### 3 CONE-HEAD EPS

Advanced in-molded® cone-head® ultra light weight EPS protection system. In-mold construction fuses the helmet's outer shell with the impact-absorbing EPS liner. The two materials are fused together, and one is reinforced by the other. This 'exoskeleton' allows helmets to be engineered that are lighter, more durable and better ventilated

### 4 VISOR

A removable and adjustable (40mm) screw-on visor

## MAIN SPECIFICATIONS

- This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards
- Retention system is a race approved Double D-RING
- Provides ample ear cavity space for most speaker systems
- A clear coat finish to protect paint & graphics
- A large-size FX-21 weighs 1.34 kg or 2.96 lbs.
- Available size: XS-XXL

**NOTE: SEE PAGE 113 FOR THE COLD WEATHER SNOW BREATH GUARD & CHIN CURTAIN**

## REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness, and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

A sleek European influenced shell design constructed using an advanced lightweight composite poly-alloy

### 2 FACE SHIELD

A flush-fit, side-coverless face shield that is optically correct, compound-curved, scratch-resistant and protects against UV-rays

### 3 VENTILATION

6 points of aerodynamically designed flush fit ventilation with chin, top, rear, and unique side extraction vents. 2 intake vents and 4 exhaust vents

### 4 INNER SUN SHIELD

Smoke tinted inner flip down sun shield system with left side slide lever

## MAIN SPECIFICATIONS

- This helmet model meets or exceeds both ECE 22.05 and DOT FMVSS-218 motorcycle helmet safety standards
- Retention system is Microlock (quick release)
- Features a metal ring for secure lock ability **A**
- A clear coat finish to protect paint & graphics
- A large-size FX-46 weighs 1.50 kg or 3.30 lbs.
- Available size: XS-XXL

**A**

## REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

## REMOVABLE, WASHABLE AND CUSTOM SIZABLE INTERIOR

AFX helmet liners and cheek pads are made with a hypoallergenic and anti-microbial nylon, most of which are removable and washable.

The size of this helmet is based on a combination of four factors: outer shell size, inner EPS thickness, comfort liner thickness and cheek pad thickness. The fit of the helmet can be customized by replacing your existing cheek pads with thinner cheek pads (for a looser fit) or thicker cheek pads (for a tighter fit). The fit can also be customized by replacing your existing comfort liner with a thinner comfort liner (for a looser fit) or thicker comfort liner (for a tighter fit).

Please refer to the shell, liner and cheek pad compatibility chart below. Keep in mind these components can only be replaced inside the group of sizes contained in each size range block.

This Youth Helmet Features A Smaller Size EPS Designed For Superior Fit And Comfort For Smaller Head Sizes

Face Shield Is A Electrically Heated Dual Lens Thermal Pane Design, For Use In Extreme Cold And Freezing Weather Conditions

# SAFETY & SIZE CHART

## WHEN TO REPLACE A HELMET

The expected lifespan of any helmet is 4-5 years of seasonal use, and decreases accordingly as the frequency of use increases. As you would expect, helmets used for competition such as road racing and motocross tend to have a much shorter life span. The more exposure a helmet endures to the elements, body oils, and perspiration, the faster it will wear out. In most cases the helmet liner will be the first component to wear out and, as such, functions as a good indicator that a helmet should be replaced.

We at AFX recommend that any helmet suffering a significant impact to the shell be removed from use immediately, whether there is visible physical damage or not. A helmet is designed to deform in an accident in order to absorb the energy of the impact, and should never be reused afterwards for its ability to protect the rider further could be compromised.

## HELMET FITTING GUIDE

### 1 | MEASURE YOUR HEAD

Determine the circumference of the widest part of your head by using a flexible tape measure. Generally, the widest part of a person's head is the area 2.5cm (1") above the eyes and ears. However, we suggest measuring at a few points both above and below that line to determine the greatest measurement before referring to our size tables. We also suggest testing the fit of a helmet one size smaller and one size larger than what the chart recommends. No helmet can provide protection if it's too uncomfortable to wear.

### 2 | TRY WEARING THE HELMET

Helmets must fit snugly, but not painfully tight. While holding the chinstraps outside of the helmet, pull it down over your head, taking care that the chinstraps do not go up inside the helmet. A proper-fitting helmet will feel snug with fairly even pressure around the sides and top of your head. On most modern helmets the liner is designed to be a little extra snug at first, but will break-in after several hours of riding to match the particular shape of your head. If you are not familiar with how a helmet should fit and feel, be sure to ask for assistance from a salesperson or a more experienced rider. As a rule, the helmet should not be able to move around on your head without pulling on your skin. A loose fitting helmet is not only dangerous, but may also be noisy and tiring to wear. Most people make the mistake of buying a helmet that's too large. **IMPORTANT:** Make sure that you fasten the chinstrap securely beneath your chin when trying-on a helmet and then test to see that the helmet cannot be removed from your head when fastened in that manner.

### 3 | MAKE THE RIGHT DECISION

Most retail stores will not exchange purchased helmets if they've been worn for any length of time, so take your time, and wear the helmet inside the store for several minutes. **Not every brand of helmet can fit every head size and shape.** If you find that you just can't get a comfortably snug fit in our helmets we suggest you try a different brand. Helmets can't provide protection if they never get worn.

### SAFETY REMINDER

No helmet can protect the wearer against all possible or foreseeable impacts. A helmet can only protect the portion of the head that is covered by the helmet. For maximum protection, the helmet must be well fitted with the chinstrap securely fastened. Failure to follow these instructions, the instructions printed on the helmet, and those contained in the owner's manual may result in the possibility of the helmet coming off during an accident - possibly resulting in a severe head injury or even death. While riding motorcycles, scooters, ATVs and snowmobiles is fun, it can also be a dangerous pastime. At AFX, we encourage you to enjoy riding responsibly, and to always ride within the limits of your abilities.

## SIZE CHART **NOTE: THIS CHART IS FOR REFERENCE ONLY**

### ADULT HELMET SIZES

XS	S	M	L	XL	XXL
6 <sup>3</sup> / <sub>4</sub> - 6 <sup>7</sup> / <sub>8</sub> hat 21 <sup>1</sup> / <sub>4</sub> - 21 <sup>5</sup> / <sub>8</sub> " 54 - 55 cm	7 - 7 <sup>1</sup> / <sub>8</sub> hat 22 - 22 <sup>7</sup> / <sub>16</sub> " 56 - 57 cm	7 <sup>1</sup> / <sub>4</sub> - 7 <sup>3</sup> / <sub>8</sub> hat 22 <sup>13</sup> / <sub>16</sub> - 23 <sup>1</sup> / <sub>4</sub> " 58 - 59 cm	7 <sup>1</sup> / <sub>2</sub> - 7 <sup>5</sup> / <sub>8</sub> hat 23 <sup>5</sup> / <sub>8</sub> - 24 " 60 - 61 cm	7 <sup>3</sup> / <sub>4</sub> - 7 <sup>7</sup> / <sub>8</sub> hat 24 <sup>3</sup> / <sub>8</sub> - 24 <sup>13</sup> / <sub>16</sub> " 62 - 63 cm	8 - 8 <sup>1</sup> / <sub>8</sub> hat 25 <sup>3</sup> / <sub>16</sub> - 25 <sup>5</sup> / <sub>8</sub> " 64 - 65 cm

### YOUTH HELMET SIZES

YS	YM	YL
6 <sup>5</sup> / <sub>8</sub> - 6 <sup>3</sup> / <sub>4</sub> hat 20 <sup>7</sup> / <sub>8</sub> - 21 <sup>1</sup> / <sub>4</sub> " 53 - 54 cm	6 <sup>3</sup> / <sub>4</sub> - 6 <sup>7</sup> / <sub>8</sub> hat 21 <sup>1</sup> / <sub>4</sub> - 21 <sup>5</sup> / <sub>8</sub> " 54 - 55 cm	6 <sup>7</sup> / <sub>8</sub> - 7 hat 21 <sup>5</sup> / <sub>8</sub> - 22 " 55 - 56 cm

The AFX logo is rendered in a bold, red, stylized font. The 'A' and 'F' are connected, and the 'X' is composed of two sharp, intersecting strokes. A subtle drop shadow is visible beneath the letters.
