

# **AFX MOTORCYCLE HELMET RECALL**

## **NAME OF HELMET – AFX FX-28 MOTORCYCLE HELMET**

AFX North America Inc. is voluntarily recalling FX-28 motorcycle helmets, sizes extra small, small, and medium, manufactured in December 2007. Certain AFX FX-28 model helmets fail to conform to the penetration requirements of the Federal Motor Vehicle Safety Standard 218, “Motorcycle Helmets.” In the event of a crash, the wearer may not be adequately protected, possibly resulting in injury.

AFX will provide a replacement helmet free of charge to the owner of the helmet that is subject to this recall. If you have a FX-28 model helmet, size extra small, small, or medium, that was manufactured in December 2007, please contact AFX at the number below for instructions on how to exchange your helmet for a replacement helmet. To ensure that your helmet is subject to this exchange program, please do the following:

1. Look inside the helmet and confirm it is size extra small, small, or medium.
2. Look at the inside of the helmet, behind the comfort liner cloth, to confirm that the label affixed to the styrofoam liner states: “Production Date: 2007/12”.

If your helmet meets both these criteria, please contact AFX at 1-877-686-6477, Monday through Friday, 9:00 am through 4:00pm (EST).

**AFX FX-28 VOLUNTARY RECALL
